

Smart
Energy
Islands

European Union
European Regional
Development Fund

This business is taking part in the Smart Energy Islands project, led by Hitachi Europe Ltd and supported by the European Regional Development Fund, and the Isles of Scilly Smart Islands programme.

The Smart Energy Islands business support service will enable the more efficient use of **locally-produced energy** in the islands' businesses.

This business is monitoring its energy consumption and understanding how to **avoid energy waste**, **increase sustainability** and make the Isles of Scilly a **greener place to relax**.

The display shows live energy use for this building.
